

TUNED Project

"TUnisian Network for Employability and Development of graduates' skills"

573778-EPP-1-2016-IT-EPPKA2-CBHE-SP

It is a structural project designed to **support the reform of the higher education system in Tunisia**, in order to foster the matching between academic supply and labour market needs, improving the efficacy of the system through a certified model of quality assurance, the monitoring of academic courses and their efficacy. **The model is based on 4 pillars**: a web platform matching supply of and demand for qualified labour; surveys on the graduates' profile and employment status; transversal promotional activities addressed to students, graduates, firms, policy makers.

Specific objectives

- To strengthen Tunisian capacities by transferring European good practices on graduates employability and monitoring of universities performances
- To increase the empowering of Tunisian universities
- To reinforce the links between academia and labour markets
- To foster the collaboration among universities at national level
- To improve the quality of the Tunisian higher education system in accordance with international standards

Key results

- 26.876 students and 118 firms registered on the web platform
- 3 survey reports on the 2017, 2018, 2019 graduates' profile produced
- 1 survey report on 2016 graduates' employment status at 3 years from graduation produced
- 38 statisticians, IT and administrative staff trained
- 1 training manual addressed to placement officers from partner universities
- 55 project promotional local seminars addressed to students and firms held
- 5 national dissemination conferences organized
- 1 methodological guidelines for the future development of graduates surveys elaborated
- 1 project sustainability plan drafted
