

VOYAGE Project

"Opportunities for the young and graduates employability in Vietnam"

561656-EPP-1-2015-1-IT-EPPKA2-CBHE-JP

The VOYAGE project aims at **developing a pilot database**, inspired by the AlmaLaurea system, in the three Vietnamese partner universities. The VOYAGE database, easily joinable by newcomer universities, led to the realization in Vietnam of the **first survey on the graduates' profile** and on the satisfaction about their studies together with a **database of graduates' curricula**, certified and available online, to facilitate the match between supply of and demand for qualified labour.

Specific objectives

- To collect and analyze data on universities and graduates performance
- To develop monitoring tools for university-business cooperation
- To promote the qualified access of graduates to the labour market
- To improve the efficacy of the higher education system

Key results

- Database of Vietnamese graduates set up
- First Vietnamese graduates profile survey developed
- Web platform matching demand for and supply of labour created in individual universities
- Consortium of Vietnamese universities at guarantee of the future sustainability of the project built up

Partnership
